PROJECTS

Thapathali campus website   **July, 2023**
- A modern and fresh site for Thapathali campus
- Collaborated with my fellow students and working under EMIS unit as full stack developer
- Still our ongoing project:
  [Thapathali Campus (tcioe.edu.np)]

Lost in tech   **July, 2022**
- A website to introduce our tech fest to students
- Based on React library along with other packages like react-scroll, styled-components
- While working on this project i mainly learned proper file management and structuring
  [Lost in tech (ecast.tech)]

Gericht   **July, 2022**
- A restaurant landing page made with React.js
- Has a clean and concise introduction of restaurant along with its menu
- I mainly learned to make proper reusable components
- was able to complete this with the help of docs and other internet sources
  [Gericht (bikrantbdr.github.io)]

Wordle   **February, 2022**
- A clone of wordle game using JS
- Did this project while learning javascript and css
  [wordle (bikrantbdr.github.io)]

Reflex-O-Type   **January, 2020**
- An academic project using C++
- An SFML library project, where a user can improve his/her touch typing
- Worked as a team leader and properly managed work division
  [bikrantbdr/ Reflex_o_type (github.com)]
